

Mayar Ibrahim

Front-End React.js Developer

mayar.ibrahim.fathy@gmail.com | +20 1554838681 | <https://www.linkedin.com/in/mayaribrahimfathy/>
<https://github.com/MayarIbrahimFathy> | Alexandria, Egypt

PROFESSIONAL SUMMARY

Frontend Developer specializing in React.js with experience building real-world, responsive web applications. Skilled in API integration, performance optimization, and creating scalable user interfaces. Contributed to projects including e-commerce platforms with a focus on clean, maintainable code. Strong team player committed to delivering high-quality results and continuous learning.

TECHNICAL SKILLS

- **Frontend Technologies:** JavaScript (ES6+), TypeScript, HTML5, CSS3, React.js, Next.js, Redux, Redux Toolkit
- **UI Frameworks:** Bootstrap, Tailwind CSS, Material UI, Responsive and Mobile-First Design
- **ERP Systems & Frameworks:** Frappe Framework, ERPNext (Customization, Modules, Workflows)
- **Backend & Development Tools:** MongoDB, Firebase, RESTful APIs, Git, GitHub, Visual Studio Code
- **Additional Skills:** API Integration, Authentication (NextAuth, Google Auth), Agile Methodology, State Management, Version Control

PROFESSIONAL EXPERIENCE

Frontend Developer | Cre8tiv Maxx Company

Dec 2025 – Feb 2026 | Remote

- Customized and configured ERP modules using Frappe Framework according to business requirements.
- Managed users, roles, permissions, and module profiles with proper role-based access control.
- Created and customized print formats and handled system structure for secure authorization
- Developed a React frontend website, fetching and displaying data from Frappe via APIs

Frontend Developer Intern | Web Masters Company

Oct 2025 – Dec 2025 | Remote

- Develop and optimize responsive React.js components for e-commerce platforms and dashboards, ensuring high performance using modern best practices.
- Collaborate with UI/UX designers and backend developers to deliver pixel-perfect interfaces, integrate RESTful APIs, and contribute to agile development processes.

Frontend & Cross-Platform Development Trainee | Information Technology Institute (ITI)

Mar 2025 – Aug 2025 | Intensive Code Camp | On-Site

- Completed intensive training on frontend and cross-platform development.
- Built responsive web interfaces using React.js and Next.js.
- Developed mobile applications with React Native.
- Collaborated on agile teams to deploy real-world projects.

Web Development Instructor | Digital Egypt Pioneers Initiative (DEPI) - Udacity Partnership

Dec 2024 – Apr 2025 | On-Site

- Delivered training sessions covering Python, HTML, CSS, and JavaScript.
- Guided learners through hands-on website projects and debugging techniques.
- Mentored students and provided project feedback.

EDUCATION

Bachelor's Degree in Software Engineering

Faculty of Computers and Information, Kafr-Elshiekh University

Project: Pocket Chef - Mobile cooking application helping users learn recipes with available home ingredients

Technologies: React Native, Node.js, Knex.js, Docker

PROFESSIONAL CERTIFICATIONS

- Intensive Code Camp Certificate | ITI | Mar 2025 - Aug 2025
- Frontend Development Diploma | Route Academy | May 2023 - Oct 2023
- Web Development Challenger Track | FWD Udacity | Jan 2023 - Mar 2023
- Web Development Course | FWD Udacity | Aug 2020 - Sep 2020

FEATURED PROJECTS

Movie Discovery Platform - TMDB Integration

Technologies: Next.js, React.js, Tailwind CSS, TMDB API

- Built a responsive movie app using TMDB API with advanced genre, rating, and release-date filters.
- Implemented personalized watchlist feature with local storage persistence for user preferences
- Optimized performance using Next.js dynamic imports and image optimization for faster load times

Demo : [Movie Website](#)

E-Commerce Platform

Technologies: React.js, Redux Toolkit, Bootstrap, REST API Integration

- Built a fully functional e-commerce web app with dynamic product catalog and secure user authentication
- Implemented Redux Toolkit for efficient state management of shopping cart and user sessions
- Developed reusable React components for product listings, details, and cart functionality

Demo : [E-commerce React.js](#)

Full-Stack To-Do Application with Authentication

Technologies: Next.js, MongoDB, NextAuth, Bootstrap, RESTful API, Google OAuth

- Developed a full-stack task management app using Next.js with server-side rendering and API routes.
- Implemented CRUD operations with MongoDB and integrated Google OAuth using NextAuth.
- Designed a responsive UI with Bootstrap for seamless desktop and mobile experience.
